

THE BROASTER COMPANY

Oil Caddy

- Provides a safe and convenient way of transporting used oil from your pressure fryer to where it may be properly disposed of.
- This unique design fits easily under any model Broaster pressure fryer. Also works with most open fryers.
- Allows used oil to be drained from fryer in a single trip, for fast, easy disposal.
- Since the oil is contained inside the Oil Caddy there is no spilling or overflowing, thus reducing cleanups.

Oil Caddy

Inches
(Millimeters)

SPECIFICATIONS

COOKING OIL CAPACITY	OVERALL DIMENSIONS			SHIPPING WEIGHT
	W	L	H	
70 lbs. (31.75 kg)	16" (406)	48.75" (1238)	8.5" (216)	27 lbs. (12.25 kg)

- Made using a thick gauge Aluminum (0.11") with double walled seams.
- Perforated baffle screen helps to prevent splashing while the oil is draining into Oil Caddy.
- Two hardwood handles at both ends of the Oil Caddy help to minimize heat transfer from the oil.
- Two eight inch wheels make transporting the oil easier than ever.
- Fits under any Broaster pressure fryer. Also works with most open fryers.
